Non-Destructive Hydro Excavation for Contractors, Utilities & Municipalities — Serving the GTA & Southern Ontario

AMG Hydrovac delivers precise, damage-free hydro excavation across the Greater Toronto Area and Southern Ontario. Using pressurized water and high-flow vacuum, we expose buried gas, hydro, water, sewer and telecom infrastructure without the risk of a strike — safer and cleaner than mechanical digging, and fully documented from start to finish.

CORE SERVICES

- Hydrovac Excavation
- Slot Trenching
- Remote Hose Excavation
- Water Box Repair & Replacement
- Daylighting
- Vacuum Excavation
- Line Locating
- 24/7 Emergency Excavation
- Potholing
- Frost / Cold-Weather Digging
- Utility Daylighting
- Catch Basin & OGS Cleaning

EQUIPMENT & CAPABILITIES

- **Truck-mounted hydrovac unit** (Kenworth T800 tri-drive chassis, Tornado F3C hydrovac body) — owner-operated
- **Debris tank: 12 cu yd** | **Fresh water: 6,000 L (1,585 US gal)** | **Hose reach: 100 ft** — extendable on request
- **Boom reach: 26 ft standard / 41 ft extended** | **342° turret rotation** — quick-latch boom with removable deflector for low-clearance and confined sites
- **Owner on the controls** — the operator who quotes the job runs it; a swamper is added when the scope calls for it
- **Heated-water capability** — cuts through frozen ground and the frost line for year-round, winter excavation
- **Extended remote-hose reach** for backyards, tight lots, indoor and restricted-access sites
- **24/7 emergency response** for spills, line strikes, washouts and breaks across Southern Ontario

SAFETY & COMPLIANCE

- **COR** (Certificate of Recognition) — certification in progress through IHSA
- **Locate-verified digs** — utility locates requested through Ontario One Call before every excavation
- **Fully documented digs** — photo logs, confirmed depths and daily reports
- Crew certifications: Confined Space Entry · Traffic Control (OTM Book 7) · WHMIS · First Aid / CPR
- **WSIB** — registered and in good standing; clearance certificate available upon request
- **MECP EASR registration** — transport of hydrovac slurry to licensed receiving facilities; disposal shown as its own line on every quote

INSURANCE

Carried through BrokerLink Inc. / The Wawanesa Mutual Insurance Company:

- Commercial General Liability — **$5,000,000**
- Automobile Liability — **$2,000,000**
- Non-Owned Automobile Liability — **$5,000,000**
- Limited Pollution Liability — **$1,000,000**
- Employer's Liability — **$5,000,000**
- Certificate of Insurance — including additional insured status and 30 days' notice of cancellation — available upon request
